

Dear Ladies worldwide,

My name is Martina Santoro. I'm 30 years old and i live in Rome, Italy.

I graduated in Architecture from the University of "Roma TRE", followed the second graduated in Urban Architecture from the same Univeristy.

I work as an architect in Italy.

I am especially interested in art, literature and sport and I have practiced many competitive sports such as swimming, volleyball and sailing. I have a boyfriend since 2013, he is the first supporter of my circle life.

With the endorsement of the National Board of the Ladies' Circle Italy, I would like to make myself available to the Ladies' Circle International by putting myself forward as a candidate for the position of International Weblady for the year 2017-2019.

I would like to be part of the International Board, which Italy has been absent from for a long time, in order to contribute in an intimate way and build new projects together, thereby also involving many more Italian ladies in international events.

Ladies' Circle Italy celebrated its 43th year and my circle in Roma its 6th. I have been a member of the Ladies' Circle since 2013 and have held the position of Weblady once (2013-2015), Secretar twice (2015-2017) and VicePresident (2016-2017) in the Ladies' Circle Roma. I was also Weblady for a year (2015-2017) of the National Board of Ladies' Circle Italy.

This experience gives me the desire to continue together: to empower, expand and widen our horizons in order to provide our beloved circle with opportunities and potential for the Ladies of today and tomorrow. So I'm with you, with all my friendship and willingness to serve.

Yours In Circle,

Martina Santoro ( Italy )
