

Some news about our club in Cyprus.

Two of our clubs have held their grand projects of the year, with success and many small ones are to come. LC1 will help "Arodafnousa", the Cyprus Anti-Cancer Society and LC5 will help the paediatric ward of Paphos hospital with any machinery they are in need. We have also helped in decorating the ward for Christmas.

LC5 club has held a Christmas outing with the Round table 7 and 41 Club of our town in order for the members to get to know each other. A meeting was held also in order to think on the possibility of a co-event with the Tablers.

The national presidents will meet with the new year in order to organise our annual excursion, a picnic where all 4 clubs meet up the mountains and spend some time together.

This year all clubs will hold their annual agms together in order to create better bonds along their members. This was a wish of the previous presidents, and so, this year we will try to make it happen.

New members have been added to LC1, LC5 and we are all trying to help LC3 in finding new members. I have had a discussion with Petros Filippou, the president of Round Table in Limassol, in order for their club to help us in finding new members as well.

Our club is also getting ready in meeting you soon! Hopefully we will arrange something nice for you and I am hoping that all new members will realise what Ladies Circle is about. We have so much to learn from you.

With this I wish you and all board ladies Happy New Year, full of love, prosperity and most of all, HEALTH.

All the best,
Despina
