Motto	Circling with Colors
AGM	May 18 th 2019 in Ampefy
Board Meeting	03 board meeting took place with one by Conference Video

May

Organized by the LCM1 on the beautiful beach “Mahambo” of the east coast, we were all gathered for a general meeting punctuated by highly important discussions but bathed in a friendly and festive atmosphere. Circling with Colors will be the leitmotiv that the new board will sow throughout this colorful year.

June

This is the season of induction of new board of local club, which we had the great pleasure to participate. Some handovers were made with members of Quatalagor. And, we started working on fundraising for local service project, as we did not elect National project service during the last AGM.

July

We took advantage of the World Cup to organize a final World Cup night with lots to win, this was held in Tamatave. The evening was just great because we had good laughs together, tears for some, and we were able to collect money for the local clubs.

Also, we had a meeting with the Convenor of our National Annual general meeting, where great ideas emerged and 41 and Ladies from Montpellier were also in Tana!

August

Our IPP had the honor to represent us in the LCI Conference in Haugesund. This was her first time and she kept a wonderful memory that she shared with us all the emotions we know. She came back enriched with new friendships. It is not a surprise!

September

It's back to school but also some clubs came back with their meetings. We already had the national committee in the lead and we wanted to follow the actions of the clubs closely. The logo of the next AGM was definitely fixed.

Unfortunately, LCM4 could not attend the Number club exchange held in India but they were involved in it.

October

Because we could not move to each other (02 members of the national board live in the east cost) so we did a technological meeting to organize the national council.

Club 41 also invited in their meeting, the ladies to get to know the new presidents and the Agora better.

On behalf the national board, ladies had distributed juices for the children, the elderly being part of the associations that the clubs support.

LCM5 was contacted for the next Number Club Exchange which will take place in Estonia in April 2019.

November

The first national committee took place again in Tamatave, as decided at the AGM. We had a very thought-provoking committee that a good number of ladies had participated in. We celebrated the birthday of 02years and 07years of the LCM5 and LCM4 during this national council. We also were proud and happy of one of member who has been transferred in LC France in Paris so we sent a little video surprise for her!

During this week end, we were fortunate to be able to live also at the birth of the 2nd club 41 in this city. During 03 days, the quatalagor was in full swing! and 200 kilometers away, ladies had also participated in the Olympiads organized by the Round Table. These Olympiads were marked by the celebration of the 20 years of the TRM3.

The celebration of the 17 years of the LCM (November 10th) was at the level of each club, either by actions or in meetings.

December

At this end of the year, we approached the clubs to accompany them in their actions, and in the preparations for the half year report, the various events including the chartering of the LCM7 that we wish to see the day after 01 and a half years of training.

Now is the time to have a look of what we achieved and it is more than positive ... Ladies have circling with colors!

We cannot wait to see you in MTM and to host the international board ☺

We all wish you a colourful holidays, happy many returns, merry Christmas and only diamonds things for 2019.

Yours in ladieship,

Eliane RAZAFINDRAKOTO
President Ladies' Circle MADAGASCAR
2018-2019

Lamiah CAJEE
Vice President Ladies' Circle MADAGASCAR
2018-2019
